## ***La clinique médicale de luthérienne***

### ***The Lutheran Medical Clinic***

*We would like to thank the many of you who support the clinic with your prayers and contributions. Without the support of LWML and others in LCMS we would be unable to provide service to the Madeline area of Cap-Haitian.*

*The 2008 grant purchased medical equipment and the newly awarded 2010 grant will help complete clinic construction.*

*The clinic hosted three different nurses from the US and hosted one Medical team servicing 500 community members. There is another team planning to use the clinic in October.*

*In the interim the clinic does struggle to maintain wages, medication and morale in the crisis's afflicting the country.*

*The need for hygiene kits, food, clothing, quilts and shoes remain needed as supplies are depleted from the many seeking aid from the quake. Please consider giving toward the next container going in October or monetarily toward sending the container, for medication or wages.*

*I was privileged to visit Haiti for the sixth time June 2010 and am humbled at the wonderful things the Lord can do even amidst great crisis.*

*Deb Larson LMA Vice President*

*Day to day member s of the church and families of our school children utilize the clinic.*

*The women in the picture with her son and again in the picture below of the Madeline church choir brought her sick son to us for care in 2009 this women we have known since 2004.*

*We treated her sick son but have since learned she died during the year of hepatitis. Many die of this type of disease in the third world.*

*We don't know why she did not seek treatment but we know she is with our Lord. She leaves behind four children and her husband.*

*Nurses at the clinic assess vital signs of a visiting client.*

## **The Madeline Sewing Center and Sewing School**

The sewing center has continued to operate since 2004. This year three students will have completed three years and graduate. The fashion show continues each July.

The women of the Madeline church will be also using the equipment to sew school uniforms from a small grant awarded by LMA. They continue to use the rooms for bible study and as a kitchen for church gatherings.

Needs for the sewing center are cupboards, a propane gas stove, locked storage units, thread, crochet thread, yarn, church kitchenware, utensils, plates and silverware.

*Pastor Bernard's Tap Tap: the Salvhus's talk with Pastor Bernard as we prepare to transport some of the congregation home after church services Sunday. Note the newly poured foundation for the new classrooms in the foreground.*

Many of our teachers are women and mothers, some of the male teachers are seminary students but also fathers. Many have been here since 2004
